# 2017 Street Reconstruction Project

## Newsletter No. 3

### Project Update

The Township Board held a well-attended July 11 Assessment Hearing with strong resident participation for the 2017 Street Reconstruction Project. All residents were given time to express their feelings of the project and proposed assessment. The overwhelming majority of residents were not in favor of the proposed assessments for the project.

The Board voted not to Award the construction contract to the lowest responsive bid contractor for all three parts of the project, RD-001, RD-002 and RD-003 (summarized below). This vote effectively stopped the project. Since there was no longer a project to fund, no special assessments were voted on, and no assessments will be levied against properties of this proposed project.

### What's Next?

The Township will move to the next project area identified in the Capital Improvement Plan (CIP) for 2018 construction. 2017 Project areas of RD-001, RD-002 and RD-003 are no longer on the CIP and will be considered at a later date. These areas are no longer on the Township CIP.

### Project Areas

Please recall the 2017 Project areas have been identified as:

- RD-001 - Logan Ave, north of 225th Street
- RD-002 - Woodland Road, Plateau Drive, and Woodland Lane (400 feet east of Woodland Road)
- RD-003 - Logan Ave, between Southern Oaks Drive and 245th Street
